90016-25#	25 lbs (Pail)	25 lbs.

TECHNICAL INFORMATION

Color	White
Odor	Characteristic
pH	9.23 (3.5% solution)
State	Powder
DOT	Not Regulated By DOT

The use of **Hibernator**, on a one-time basis, when closing down your pool for the winter insures a clean beautiful pool during the winter months and allows an easy, economical pool start-up the following season. It eliminates the need to drain the pool, in most instances, and saves on labor and materials.

DIRECTIONS FOR USE:

Winterizing Treatment: Broadcast Hibernator over surface of pool at the rate of one pound per every 1,000 gallons of pool water. Assuring that 20 ppm of prouct is present at shutdown, will keep water clean and sparkling throughout the winter months with no further effort.
