62550-55	55 Gallon Drum	495 lbs.

*Most products available in totes. For alternate packaging, contact ITD.

TECHNICAL INFORMATION

Color	Green
Odor	Odorless
pH	13+
State	Liquid
DOT	Hazardous (Potassium Hydroxide)

EZ Lift is designed to release and remove chewing gum, tree sap and other organic stains from walkways, sidewalks, driveways and other concrete surfaces. EZ Lift will save labor and time on these almost impossible stain removal jobs.

DIRECTIONS FOR USE:

Spray EZ Lift undiluted on chewing gum, tree sap or other organic stain and, after a 5 minute dwell time, remove with a putty knife or rinse with a pressure washer. Repeat process should there be any remaining shadow. For Tar, spray undiluted and keep wet with additional product as needed for 15-30 minutes. For organic stains such as sap, berries, or leaves and heavy oil stains, spray on undiluted and after a brief dwell time agitate with a scrub brush and rinse with a power washer.

For lighter jobs, EZ Lift can be prediluted with water and applied to the surface or it can be used with a pressure washer as the detergent. After cleaning, rinse all surfaces adequately as to not leave any residue.
