# Super Coil Descaler

- Inhibited Acid Formulation
- Non-Fuming
- Non-Etching

## PRODUCT CODE

**21185**

## PACKAGING

| Product Code | Size Available | Weight |
|---|---|---|
| 21185-01 | 4x1 Gallon Case | 40 lbs. |
| 21185-05 | 5 Gallon Pail | 50 lbs. |
| 21185-55 | 55 Gallon Drum | 555 lbs. |

*Most products available in totes. For alternate packaging, contact ITD.

## TECHNICAL INFORMATION

| | |
|---|---|
| Color | Red |
| Odor | Odorless |
| pH | ≤1 |
| State | Liquid |
| DOT | Hazardous (Hydrochloric Acid) |

Super Coil Descaler is an acid-type descaling compound for use in descaling heating coils, water tanks or any other equipment which have a tendency to accumulate mineral scale. Super Coil Descaler is inhibited to protect ferrous metal from etching. Super Coil Descaler does not fume. Super Coil Descaler is meant to be used in a circulating process for the purpose of removing internal scale from instantaneous hot water heating coils.

### DIRECTIONS FOR USE:

Use this product as is, Do not dilute. Recirculate this solution through coils or equipment that is scaled until solution no longer foams. Discard used solution and repeat if necessary. The amount of Super Coil Descaler used will depend directly upon the degree of build up. The scale occurred over time a layer at a time and that is the way it has to come off....a layer at a time. Descaling takes time, so don't rush it.
